PRESENT AND ACTING:

Deputy Stone called the meeting to order, followed with prayer by Commissioner Hires and pledge of allegiance to the flag.

Commissioner Wood stated that each Commissioner had been given copies of the 1-25, 1-12, 2-16 and 2-12, 1988 minutes and asked if there were any questions and if not to set forth approving the minutes.

Commissioner Dillard stated he was opposed to the new way of handling the minutes and he also thought that it was illegal not to read the minutes in a public meeting.

Motion by Commissioner Hires, seconded by Commissioner Dillard and carried 5-0 to wait until the County Attorney could be present and give his legal opinion on the way the minutes should be handled.

Mr. John Maddox was present at the meeting in re: abandonment of a road. Commissioner Wood distributed a map (see attached) that showed the road in question. Commissioner Wood stated that the road was part of Mr. Maddox's yard. Commissioner Dillard stated this road had never been maintained by the County.

The Board discussed the abandonment of an unmaintained parcel of land joining Mossy Pond and it was agreed by consensus to go ahead with advertisement for a public hearing involved with the abandonment of a road as approved in a prior meeting.

Mr. Lee Roberson, Planning Commission, met with the Board to discuss the financial situation of the Planning Commission. Mr. Roberson stated that there were several problems, such as a secretary, appointed members who were not participating, the unavailability of funds to attend seminars and other functions required by the State.

Commissioner Wood stated again that the Board was willing to work with the Planning Commission if Mr. Roberson would make some dollar figure projection.

Nathan Goodman suggested that the Board and Planning Commission have a workshop and decide what was needed financially and what the BCC expected of the Planning Commission.

The Board agreed by consensus to allow Deputy Clerk Sarah Taylor to temporarily take the minutes of the Planning Commission.

Dr. Snyder met with the Board to discuss the health departments fee schedule.

Motion by Commissioner Diallard, 2nd by Commissioner Richards and duly carried 5-0 to accept the Health Department's new rates as per attached fee schedule.

Larry McGlothlin, Baskerville Donovan Engineers met with the Board to update the Board on the Ag Industrial Park. Mr. McGlothlin stated his main goal tonight was to get permission for the Chairman to sign off on the grant instead of having to meet with the Board again.

There being no further business, the Board did adjourn.
