

Mosquito Control Spray Truck Driver

Job Vacancy

Position Type: Seasonal

Job Summary: Safely and effectively, operate a mosquito control spray truck as part of an integrated mosquito management program.

Minimum Requirements

- Valid Driver's License with a clean driving record
- At least 18 years old
- Be authorized to work in the United States
- Must have reliable transportation
- Able to pass a pre-employment background check and drug screen
- Communicate effectively in English in both written and verbal form.

Job Description

- Thoroughly spray assigned zones as instructed by the contract supervisor
- Properly use GPS monitor equipment as instructed and report any malfunctions immediately
- Accurately record all required data from each spray mission on the appropriate log sheet
- Be thoroughly familiar with all applicable chemical labels and Material Safety Data Sheets (MSDS), make sure copies of both documents, for all chemicals present, are in the truck at all times, and handle/apply all chemicals according to label specifications
- Know and follow proper safety and spill procedures at all times and use all required Personal Protective Equipment (PPE) regularly
- Obey all traffic laws
- Report all incidents or accidents to contract supervisor immediately
- Communicate respectfully, honestly, and knowledgeably to residents if stopped and questioned
- Keep truck clean and free of trash or debris at all times
- Never allow a passenger other than another Calhoun County employee in truck at any time
- Fully support, enforce, promote and implement the County's safety policies and programs
- React to change promptly and effectively and handle other essential tasks as assigned

Physical Demands and Work Environment:

The work requires strenuous physical exertion and the employee may be required to drive, stand, walk, bend, climb, kneel and crouch for extended periods, as well as see, talk, hear and use hands and arms to grasp, handle, reach and feel. The employee must be capable of lifting and using heavy items such as chemical containers and application equipment weighing up to 75 pounds. Work is regularly performed outdoors and may include exposure to potentially hazardous situations and substances such as extreme weather conditions, challenging and uneven/unstable terrain, pesticides, dust and airborne particulates, excessive noise, biting insects, hazardous plants, and wild and domestic animals.
